your Future

DreamSpace TV: Episode One Student Activity Sheet

Name: _____

Date: _____

DO

- Create your own windmill that can stand without your support based on your materials and plan.
- Experiment by safely placing your windmill at 2-3 different locations outside. Can you note the following:
 1. Does the location or position of the windmill change the amount of times it rotates?
 2. How do you keep your windmill stable when it is windy outside?

REVIEW

1. What worked well with your windmill?

2. What was the biggest challenge you encountered and how did you overcome it?

3. If you could improve on your windmill in any way, what would you do?
