

DreamSpace TV: Episode Three Student Activity Sheet

Name: _____

Date: _____

PLAN

Identify your 3 obstacles and the loops for each one.

Colour in the box that represents the obstacle you are going to make from the materials available to you.

Obstacle	Loops (Instructions) e.g. repeat 10 times

Labelled diagram of the
obstacle I will make:

Labelled diagram of my obstacle course:

DreamSpace TV: Episode Three Student Activity Sheet

Name: _____

Date: _____

DO

- Create your own obstacle and make sure it includes at least 3 loops.
- Be sure to:
 1. Complete the plan on the previous page first
 2. Practice explaining the course and challenges. Make sure the instructions you are giving are really clear. Use your labelled diagram to help with this.
- Once you have that done, test it out, have fun and ask some friends or family to take part.

REVIEW

1. How did you communicate how the obstacle course worked to your class/family?

2. List the three skills that you think were the most important for you to complete this challenge.

3. What extra loops (repeat instructions) could you add to this course?
